About Odoo

Odoo is a powerful, all-in-one open source business management software that covers everything from CRM, e-commerce, accounting, inventory, sales, HR, project management to manufacturing and much more! It is highly modular, businesses can start with a few apps and add more as they grow. With a simple intuitive interface, strong community support, and flexibility, Odoo has become a top choice for businesses of all sizes around the globe.

About NMIT

Nitte Meenakshi Institute of Technology – Nitte (Deemed to be University) stands as a premier Engineering Institution located in Bengaluru. Since its inception in 2001, NMIT has earned commendable accreditations for its excellence in professional education, multi-disciplinary research endeavors, commitment to innovation, and entrepreneurship. Notably, NMIT is the youngest institution to be granted 'Autonomous' status by the UGC of India.
